Rothschild Fellows 1979–2022	21

Dear Fellows,

It is with great pleasure that we welcome you to the family of close to 900 researchers who have joined the ranks of the Rothschild Fellows over the past 44 years.

The Rothschild Fellowship programme is one of Yad Hanadiv's flagship initiatives to strengthen Israeli academia. Over many decades, Rothschild Fellows have demonstrated the immeasurable importance that scientific inquiry, carried out at the highest international standards, holds for Israel's future. Every new cohort of Rothschild Fellows affords us an opportunity to meet extraordinary young scholars, each with the potential to transform their field, and even the world around us. We are happy to welcome five Fellows from the second cohort of our Physician-Researcher Fellowship track – bringing the total number of annual Fellows to 30, across all academic disciplines and specialties.

The ability to sustain top quality research in Israel must never be taken for granted. It depends on committed scholars such as yourselves building careers in Israel's universities. Developing science to its full potential in this small country also requires a continuously engaged scientific community able to collaborate across disciplines and institutions. We are proud of the active and integral part that so many past Rothschild Fellows have played, and continue to play, in this vital enterprise.

Experience of over four decades of Rothschild Fellowships convinces us that your future path is likely to be both exciting and important. We look forward to following your academic journey and are grateful for the opportunity to be of assistance.

A stylized, handwritten signature in black ink, featuring a large, looped 'Y' and a long, sweeping horizontal stroke extending to the right.

Dr Yigal Mersel
Chief Executive
Yad Hanadiv

A handwritten signature in black ink, consisting of two distinct, stylized characters that resemble 'A' and 'R' joined together.

Dr Asher Ragen
Programme Director
Academic Excellence

ABOUT THE ROTHSCHILD FELLOWSHIPS

The Rothschild Fellowship programme was established to help young scholars of outstanding academic merit and potential advance in their respective fields. The first group of Fellows was selected for the 1979/80 academic year. Nine fellowships were awarded in that first round by a committee chaired by Sir Isaiah Berlin.

Today, fellowships are awarded in four separate categories. In 1997 the programme was divided into two categories – Rothschild Fellowships in the Natural, Exact and Life Sciences and Engineering (NELS) and Rothschild Fellowships in the Humanities and Social Sciences (HS). A third committee awards Fellowships in disciplines related to Brain, Mind and Language (BML). A Fellowship for Physician-Researchers was established in 2022. The current Chair of the Natural, Exact and Life Sciences and Engineering Committee is Professor Marc Feldman (Stanford University); Professor Anthony Grafton (Princeton University) chairs the Committee for the Humanities and Social Sciences; Professor Naama Friedmann (Tel Aviv University) chairs the Committee for Brain Mind and Language; and Professor Chaim (Howard) Cedar (Hadassah Medical Centre and The Hebrew University of Jerusalem) chairs the committee for Physician-Researchers.

A total of 30 Fellowships were awarded in 2023.

Over 850 Fellowships have been awarded to date. The majority of fellows have pursued their academic careers in Israel, with many going on to become leading figures in their fields. Fellows can be found in positions of academic leadership in Israel, including as university presidents, vice presidents and rectors. (A complete list of past fellows can be found on page 20.)

In 2012 Yad Hanadiv initiated a tradition of Rothschild Fellows Colloquia. A Colloquium takes place every three years bringing together the most recent three cohorts of Rothschild Fellows, many of whom are still pursuing postdoctoral studies. It is an opportunity for fellows to meet colleagues and present their work to senior academics in Israel. This year's recipients will be invited to the 6th Colloquium in 2027.

ABOUT ACADEMIC EXCELLENCE

Supporting international-calibre research in Israel by investing in outstanding young scholars and promising fields

Funding world-class research in Israel has been a mainstay of Yad Hanadiv's philanthropy for decades. Support is provided through fellowships, institutional grants, and strategic initiatives and partnerships that advance high quality academic work in select fields of study. Yad Hanadiv also works to expand opportunities for Israelis from all backgrounds to develop into exceptional scholars.

One area of strategic focus is bio-medical research. Yad Hanadiv collaborated in establishing the Israel Partnership for Precision Medicine (precisionmedicine.org.il) operated by the Israel Science Foundation. This programme has already provided dozens of substantial research grants that build on the sharing of clinical data, large-scale collection and analysis of genomic and other molecular data, and by bringing together researchers from clinical and university settings. We are also exploring ways to foster career paths of Physician-Researchers, and to increase sharing of data for research purposes among medical institutions.

A second area of focus is on research and teaching in the Humanities, supplying funding that furthers high levels of scholarship, interdisciplinary research, and closer ties between academic humanities and the cultural sector.

The Arab Excellence strategy, operated jointly with Yad Hanadiv's Arab Community team, seeks to increase opportunities for Arab students to excel in higher education and in academic and valued private sector employment. The emphasis is on improving levels of achievement in Science and Technology disciplines.

A recently launched programme also seeks to improve access to competitive academic programmes among first generation students from the periphery.

ABOUT YAD HANADIV

Yad Hanadiv is dedicated to creating resources for advancing Israel as a healthy, vibrant, democratic society, committed to Jewish values and equal opportunity for the benefit of all its inhabitants. The Foundation acts on behalf of Rothschild family trusts that carry forward a 130-year tradition of philanthropy in Israel. Yad Hanadiv seeks to maintain a modest public profile and traditionally refrains from publicizing its grants. Among its better known projects are the construction of Israel's Knesset (1966) and Supreme Court (1992) buildings, the establishment of Educational Television (1966), the Centre for Educational Technology (1974) and the Open University of Israel (1976). Current activity focuses on five core programme areas: Academic Excellence, Education, Environment, Arab Community and Early Childhood. The Foundation is also responsible for operating the Ramat Hanadiv Nature Park and Memorial Gardens, and is collaborating with the National Library of Israel towards its renewal as a 21st-century hub for on-site and online activity in a fitting and sustainable home.

COMMITTEE MEMBERS 2023–2024

Rothschild Fellowships in the Humanities and Social Sciences

Chair: Prof. Anthony Grafton (History, Princeton University)

Prof. Ran Abramitzky (Economics, Stanford University)

Prof. Guy Bar-Oz (Zooarchaeology, University of Haifa)

Prof. Niva Elkin-Koren (Law & Technology, Tel Aviv University)

Prof. Ruth Fine (Iberian Studies, The Hebrew University)

Prof. Adiel Schremer (Jewish History, Bar-Ilan University)

Rothschild Fellowships in the Natural, Exact and Life Sciences & Engineering

Chair: Prof. Marcus Feldman (Ecology, Stanford University)

Prof. Ilan Marek (Chemistry, Technion – Israel Institute of Technology)

Prof. Yigal Meir (Physics, Ben Gurion University of the Negev)

Prof. Ronit Satchi-Fainaro (Physiology, Tel Aviv University)

Prof. Howard Stone (Engineering, Princeton University)

Prof. Michael Wooldridge (Computer Science, University of Oxford)

Rothschild Fellowships in Brain, Mind and Language

Chair: Prof. Naama Friedmann (Psycholinguistics, Tel Aviv University)

Prof. Marlene Behrmann (Psychology, Carnegie Mellon University)

Prof. Sachiko Kinoshita (Psychology, Macquarie University)

Prof. Esther Ruigendijk (Psycholinguistics, Carl von Ossietzky University of Oldenburg)

Prof. Daphna Shohamy (Psychology, Columbia University)

Rothschild Fellowships for Physician-Researchers

Chair: Prof. Chaim (Howard) Cedar (Developmental Biology and Cancer Research, The Hebrew University)

Prof. Ayelet Erez (Cancer Genetics and Metabolism, Weizmann Institute)

Prof. Neta Erez (Cancer Related Inflammation, Tel Aviv University)

Prof. Yoram Etzion (Cardiac Research, Soroka Medical Center)

Prof. Shai Izraeli (Childhood Malignancies and Leukemia, Schneider Children's Medical Centre)

Prof. Raul Mostoslavsky (Cancer Genetics and Cell Biology, Harvard Medical School)

ROTHSCHILD FELLOWS 2023

Elad Arad

PhD:

Ben Gurion University
of the Negev

Main Field of Study:

Chemistry and Nanoscience

Doctoral Dissertation:

Nanoscale Systems
for Targeting beta-Sheet
Structures

University Abroad:

Columbia University

eladarad.ea@gmail.com

Noa Bassel

PhD:

The Hebrew University
of Jerusalem

Main Field of Study:

Linguistics

Doctoral Dissertation:

Complex Anaphors

University Abroad:

University of Massachusetts
Amherst

noa.bassel@mail.huji.ac.il

Miriam Chasson

PhD:

Bar-Ilan University

Main Field of Study:

Social Work

Doctoral Dissertation:

Maternal Disintegrative
Responses in the Context
of Infant Care: Their Role in
the Association Between
Early Childhood Experiences
and Personal and Maternal
Aspects

University Abroad:

Harvard Medical School

miriamchasson@gmail.com

Leshem Choshen

PhD:

The Hebrew University of
Jerusalem

Main Field of Study:

Natural Language Processing

Doctoral Dissertation:

Improving Neural Machine
Translation Using Semantic
Structure

University Abroad:

To be decided

leshem.choshen@mail.huji.ac.il

Maayan Cohen

PhD:

University of Haifa

Main Field of Study:

Maritime Archaeology

Doctoral Dissertation:

The Ma'agan Mikhael
B Shipwreck: Hull
Construction and its Place
in the Transition in Ship
Construction, from 'Shell-
first' to 'Skeleton-first'

University Abroad:

Ca' Foscari University
of Venice

maayancohen8@gmail.com

Adi Doron

PhD:

The Hebrew University of
Jerusalem

Main Field of Study:

Neuroscience

Doctoral Dissertation:

The Role of Astrocytes in
Spatial Cognition

University Abroad:

Harvard University

adi.doron1@mail.huji.ac.il

Yonadav Barry Ginat

PhD:

Technion – Israel Institute of Technology

Main Field of Study:

Physics

Doctoral Dissertation:

Astrophysical and Cosmological Progenitors of Gravitational Waves, their Environments and Effect on the Background

University Abroad:

University of Oxford

ginat@campus.technion.ac.il

Ella Givon

PhD:

Ben-Gurion University of the Negev

Main Field of Study:

Psychology

Doctoral Dissertation:

Feeling Generation – An Evidence Accumulation Modeling Approach

University Abroad:

Harvard University

ellasharon123@gmail.com

Daniel Halperin

PhD:

Ben-Gurion University of the Negev

Main Field of Study:

Human Genetics

Doctoral Dissertation:

Identification and Characterization of the Molecular Basis of Hereditary Neurological Disorders in Isolated Populations

University Abroad:

Icahn School of Medicine at Mount Sinai, New York

halperin.danny@gmail.com

Topaz Halperin

PhD:

The Hebrew University of
Jerusalem

Main Field of Study:

Philosophy of Science

Doctoral Dissertation:

Neutrality in Ecology

University Abroad:

To be decided

topaz.halperin@mail.huji.ac.il

Oryah Lancry-Dayana

PhD:

The Hebrew University of
Jerusalem

Main Field of Study:

Cognitive Psychology

Doctoral Dissertation:

The Missing Component of
the Active Vision Loop: the
Role of Memory

University Abroad:

Harvard Medical School
and Brigham and Women's
Hospital

oryah.lancry@mail.huji.ac.il

Eran Malach

PhD:

The Hebrew University of
Jerusalem

Main Field of Study:

Computer Science

Doctoral Dissertation:

Deep Learning of
Distribution Families

University Abroad:

Harvard University

eran.malach@gmail.com

Baruch Margulis

PhD:

Weizmann Institute of Science

Main Field of Study:

Chemical Physics

Doctoral Dissertation:

Tomography of Feshbach Resonance States

University Abroad:

University of Colorado and NIST, Boulder, Colorado

baruchmar@gmail.com

Amit Marmelshtein

PhD:

Tel Aviv University

Main Field of Study:

Neuroscience

Doctoral Dissertation:

Effects of Sleep Deprivation and Sleep States on Neuronal Processing in Rat Auditory Cortex

University Abroad:

To be decided

amitmarmelshtein@gmail.com

Yonit Maroudas Sacks

PhD:

Technion – Israel Institute of Technology

Main Field of Study:

Biophysics

Doctoral Dissertation:

Actin Organization and the Influence of Mechanical Constraints on Morphogenesis in Hydra Regeneration

University Abroad:

Max Planck Institute of Molecular Cell Biology and Genetics (MPI-CBG) and TU Dresden

yonitmms@hotmail.com

Itai Massad

PhD:

Technion – Israel Institute of Technology

Main Field of Study:

Chemistry

Doctoral Dissertation:

Alkene Isomerization as a Strategic Tool in Stereoselective Synthesis

University Abroad:

University of Cambridge

itaimassad3@gmail.com

Meital Peleg Mizrachi

PhD:

Tel Aviv University

Main Field of Study:

Consumerism, Environmental Justice and Sustainable Fashion

Doctoral Dissertation:

Examining the Effects of Public Policy, Choice Architecture and the Covid Pandemic on Sustainable Consumerism, with an Emphasis on the Field of Fashion

University Abroad:

Yale University, Department of Economics

meitalpeleg@gmail.com

Meytal Radzinski

PhD:

The Hebrew University of Jerusalem

Main Field of Study:

Biochemistry

Doctoral Dissertation:

Characterizing the Interplay Between Redox Homeostasis and Protein Quality Control During Aging in Yeast

University Abroad:

UC San Francisco

meytal.radzinski@gmail.com

Shir Raviv

PhD:
Tel Aviv University

Main Field of Study:
Political Science

Doctoral Dissertation:
The Politics of AI-Usage
in Public Policy Decision-
Making

University Abroad:
Columbia University

ravivshir123@gmail.com

Gili Rosenberg

PhD:
Weizmann Institute of
Science

Main Field of Study:
Host-Pathogen Interactions

Doctoral Dissertation:
Adaptation of Salmonella
Typhimurium to
Macrophage Metabolic
Reprogramming during
Host-Pathogen Interaction

University Abroad:
to be decided

gili1.rosenberg@gmail.com

Ayelet Sarel

PhD:
Weizmann Institute of
Science

Main Field of Study:
Brain Science

Doctoral Dissertation:
Hippocampal Spatial
Representation during
Dynamic Natural Navigation

University Abroad:
To be decided

ayeletsarel@gmail.com

Gal Shavit

PhD:

Weizmann Institute of Science

Main Field of Study:

Condensed Matter Physics

Doctoral Dissertation:

Many-Body Phenomena in Strongly Interacting Low-Dimensional Systems

University Abroad:

California Institute of Technology

shavitest@gmail.com

Maha Shehade Switat

PhD:

University of Haifa

Main Field of Study:

Sociology

Doctoral Dissertation:

The Formation of Settlements in Labor Courts and Their Impact on Social Stratification in the Neoliberal Economy

University Abroad:

Harvard University

maha_shehade@hotmail.com

maha.shehadeswitat@gmail.com

Nitzan Tal

PhD:

Weizmann Institute of Science

Main Field of Study:

Microbiology

Doctoral Dissertation:

Uncovering Nucleotide Modifying Defense Systems in Bacteria

University Abroad:

To be decided

nitzantal8@gmail.com

Shai Tsesses

PhD:

Technion – Israel Institute of Technology

Main Field of Study:

Nanophotonics

Doctoral Dissertation:

Topology and Angular Momentum Transfer between Light and Matter in Nanoscale Photonic Systems

University Abroad:

Massachusetts Institute of Technology
